

Michigan House Commerce and Trade Standing Committee

Transmitted by email to: mabdul@house.mi.gov

Dear House Committee Members:

I am writing to express support for House Bill No. 4422 focused on transit oriented development around major transit investments like CATA's proposed Bus Rapid Transit project. Projects of this nature have the potential to transform regions economically. Encouraging business development in a transit oriented way along the BRT is important to this economic transformation around these major federal and state infrastructure investments.

CATA encourages the Committee to advance this bill.

Sincerely,

Sandra L. Draggoo

CEO/Executive Director
